MAINTENANCE BULLETIN

EXAM 955 TEST RESULTS

Brother and Sister Maintenance Craft members and APWU members:

The USPS has unilaterally changed the RMSS rating system. The APWU was not party to this change. An agreement was reached giving birth to the 955 Exam while laying to rest many of the maintenance battery tests previously used to qualify for positions in the maintenance craft. A new handbook RMSS similarly replaces the old MSS.

The changes came in early June of this year and throughout the country members were given the 955 Exam and received eligible ratings from the written portion of the exam. In some cases members later received notices that their score was ineligible. Management changed the way the exam is scored without discussing it with the Union.

It this happened to you contact a steward ASAP with documents showing your eligible rating and subsequent ineligible rating so that a grievance may be filed on your behalf. Do not delay do it today.

In Solidarity,

Adam Souza
 Maintenance Craft Director
